Philippine Constructors Association (PCA), Inc.

Welcome to the 37th edition of PHILCONSTRUCT.

As the Philippines continues to navigate economic pressures, cautious investments, rising costs, and global uncertainties, the construction industry once again proves the resilience and determination of the Filipino people. Despite challenges, we continue to build, innovate, and move forward.

This year's PHILCONSTRUCT is especially meaningful as the event moves from its traditional November schedule to June in support of the Philippines' hosting of the ASEAN Summit. It reflects the adaptability, unity, and "can-do" attitude that define both PCA and the construction community.

More than an exhibition, PHILCONSTRUCT represents the fighting spirit of the industry. Behind every booth, technology, and business meeting are companies and professionals who continue to believe in the long-term future of the Philippines.

For nearly four decades, PCA has remained committed to strengthening the industry through leadership, innovation, and collaboration. PHILCONSTRUCT continues to serve as the country's most trusted platform where opportunities are created; partnerships are strengthened, and confidence in the industry is renewed.

To all our exhibitors, partners, delegates, and visitors — thank you for being part of this journey.

Welcome to PHILCONSTRUCT 2026.

President

Philconstruct 2026 Series

Welcome to PHILCONSTRUCT 2026.

Every PHILCONSTRUCT reflects not only the condition of the industry, but also the mindset of the people behind it. At a time when businesses face economic uncertainty, rising operational costs, and cautious market conditions, the Philippine construction sector continues to stand strong, adapt, and create opportunities.

That is what makes PHILCONSTRUCT different.

For 37 years, PHILCONSTRUCT has been more than a trade event — it has become a symbol of industry confidence and resilience. It brings together contractors, engineers, architects, suppliers, developers, and innovators who continue to invest in the future of the country despite challenges.

PCA has always represented builders with a winning attitude — hardworking, practical, resilient, and solutions-driven. That same PHILCONSTRUCT the country's most respected and enduring construction platform.

On behalf of the organizing committee and our supporting organizations, thank you for your continued trust and support.

Mabuhay, and welcome to PHILCONSTRUCT 2026.

A handwritten signature in black ink, appearing to read 'Ruben Cueto'.

Engr. Ruben Cueto
Overall Chairman

Technoforum 2026 Series

Welcome to PHILCONSTRUCT and the Technoforum 2026 Series.

In times of economic uncertainty and rapidly changing market conditions, continuous learning and innovation become even more important. This is the role of Technoforum— to provide a platform where industry professionals can exchange ideas, discover solutions, and prepare for the future of construction.

Despite economic and operational challenges, the Philippine construction industry continues to move forward because of the resilience, adaptability, and determination of the people behind it. PCA has long represented this mindset, and Technoforum continues to strengthen it through knowledge-sharing and collaboration.

This year's sessions focus on sustainability, digital transformation, energy efficiency, project management, and emerging technologies that will shape the future of the industry.

What makes PHILCONSTRUCT unique is that it is built by industry people, for industry people — driven by a shared commitment to elevate standards and create opportunities for future generations.

Thank you, and welcome to PHILCONSTRUCT 2026.

Mr. Lito Garcia
Chairperson

Philconstruct Events, Exhibitions, and Conferences Corp.

Welcome to PHILCONSTRUCT 2026.

This year's edition reflects the resilience of the Philippine construction industry at a time when businesses continue to face economic pressures, rising costs, and global uncertainties.

Yet despite these challenges, the industry continues to adapt, innovate, and move forward. That is what makes PHILCONSTRUCT unique.

More than a venue for products and technologies, PHILCONSTRUCT is a gathering of people who continue to create opportunities, strengthen partnerships, and invest in the future of the Philippines.

For nearly four decades, PCA has represented the determination and winning attitude of Filipino builders — resilient, solutions-oriented, and always forward-looking. That same spirit continues to drive PHILCONSTRUCT today.

To our exhibitors, partners, delegates, and visitors, thank you for your continued trust and support. Your presence reflects the strength and confidence of an industry that continues to build for the future.

Mabuhay, and welcome to PHILCONSTRUCT 2026.

A handwritten signature in black ink, appearing to be "Lilit", written over a white background.

Engr. Emilio "Lilit" Tumbocon
Chairman

Office Of The President

I extend my warmest greetings to the Philippine Constructors Association, Inc.(PCA) as you hold the PHILCONSTRUCT Series 2026.

The construction industry is a cornerstone of nation-building, laying not only the foundations of our infrastructure but the pathways to economic growth, job creation, and national resilience. At the forefront of this transformation, the PCA continues to elevate the industry by equipping our builders with cutting-edge technologies, forward-looking innovations, and world-class standards. Through your work, you help ensure that what we build today is stronger, smarter, safer, and built to last.

Through PHILCONSTRUCT, you bring together the best minds, the boldest ideas, and the most advanced technologies from across the country and the world. I trust that you will take advantage of this gathering to forge stronger partnerships and find new solutions that will shape the future of Philippine infrastructure. This is how we ensure that our nation remains competitive and fully equipped to deliver on our Build Better More Program that opens doors of opportunity, strengthens communities, and drives inclusive growth for our people.

Let this gathering ignite a renewed sense of purpose. Build not only with skill, but with vision. Build not only for today, but for generations yet to come. For every structure you create is a symbol of hope, a platform for opportunity, and a legacy of progress. Rest assured that the government stands firmly with you as your partner in this shared mission. Together, we will build a stronger, more resilient, and future-ready Bagong Pilipinas.

I wish you a fruitful and engaging exhibit.

A handwritten signature in blue ink, which appears to be 'Ferdinand'.

Honorable Ferdinand "Bongbong" Marcos Jr.

President of the Republic of the Philippines

Office Of The Senate

My warmest greetings to all exhibitors, visitors, and organizers of the PHILCONSTURCT Series 2026.

Infrastructure is a fundamental economic development driver. It impacts not only the economy on a macro-level but also each and every individual in our country- from the people who are employed by this sector, down to those who utilize these infrastructures every day. Indeed, it is not only about job generation and businesses but about how effective and efficient infrastructure projects make our nation more productive.

Thus, I commend the Philippine Constructors Association, Inc. for this series of events. The regionalization of this forum will reach a wider scope of audience from all over the country. Bringing together in these events the latest innovations and industry solutions in architecture, engineering, construction, interior design, and building technology will indeed secure the future of the Philippine construction.

Mabuhay kayong Lahat!

A handwritten signature in black ink, appearing to read 'Vicente Soto III'.

Honorable Vicente Soto III
Former Senate President

Committee Chairperson For Urban Planning, Housing And Resettlement

I extend my warmest congratulations and support for the upcoming PHILCONSTRUCT Regional Series 2026, the country's premier building materials and construction equipment trade show organized by the Philippine Constructors Association, Inc. (PCA).

The series begins with PHILCONSTRUCT Luzon at SMX Clark on April 23-25, followed by Manila on June 25-28 at SMX Convention Center,

As chairman of the Senate Committee on Urban Planning, Housing and Resettlement, I am committed to advancing policies that foster sustainable development, resilient communities, and inclusive growth. PHILCONSTRUCT provides a vital platform where innovation meets advocacy, aligning with our shared vision of building better cities and homes for every Filipino.

Each regional edition underscores not only technical progress but also the industry's role in addressing urgent housing and infrastructure needs. By bringing together builders, suppliers, and stakeholders, PHILCONSTRUCT strengthens collaboration and ensures that development reaches every corner of the country.

I wish the PCA and all participants great success in this year's series. Mabuhay!

A stylized, handwritten signature in black ink, consisting of a series of loops and a long horizontal stroke.

Sen. Francis 'Chiz' G. Escudero
Senator

Committee Chairperson For Public Works

My warmest greetings to our nation builders gathered in the Philippine Constructors Association Inc., for the PHILCONSTRUCT 2026 series.

As the construction landscape of the Philippines undergoes rapid transformation, the Philippine Constructors Association Inc.'s (PCA) role grows more salient. This year's theme, "Enriching Innovation & Industry Leadership," is a stride towards more resilient, efficient, and sustainable building solutions across the Philippines.

With over 2,000 global and local brands represented and nearly 60,000 expected trade attendees nationwide, PHILCONSTRUCT is no longer just an exhibition; it is the definitive meeting point for those who dare to build the future.

I urge every participant, from our veteran engineers and architects to our aspiring developers, to maximize the opportunities for collaboration and knowledge exchange during this series.

Together, we are not just building structures; we are building a stronger, more innovative Philippines.

Maraming salamat at mabuhay po tayong lahat

Sen. Mark Villar
Senator

Department Of Public And Highways

The construction sector plays a crucial role in accelerating the delivery of vital infrastructure projects under President Ferdinand Marcos Jr's Build Better More (BBM) Infrastructure Development Initiative.

Kabilin-bilinan ng ating Pangulong Marcos Jr. na dapat makipagtulungan ang Department of Public Works and Highways (DPWH) sa ating mga ka-partner mula sa pribadong sektor upang mas lalo pang mapabilis ang konstruksyon ng mga proyekto gaya ng mga kalsada, tulay, classroom, ospital-para mapakinabangan ito agad ng ating mga kababayan.

As one of the primary agents and builders of progress, the Philippine Constructors Association, Inc. (PCA) has supported the Marcos administration's economic growth and societal development. By showcasing innovative and advanced building technologies in the construction industry—from infrastructure and architectural industries, the Philconstruct 2026 not only builds connections of the largest construction firms but also educates participants on the current industry regulations and best practices.

Sa tulong ng Philconstruct 2026, matitiyak natin na de-kalidad at nasa tamang presyo ang mga materyales at equipment na ginagamit sa pagtatayo ng mahahalagang imprastruktura.

Makaka-asa ang ating mga kasamahan sa PCA na patuloy na makikipagtulungan ang DPWH sa inyo para sa patuloy na pagpapanatili ng maayos na imprastruktura para sa maunlad na Bagong Pilipinas.

I wish the organizers and participants of the Philconstruct 2026 success.

Sama-sama tayo tungo sa Bagong Pilipinas!

Sec. Vivencio B. Dizon
Secretary

Department of Interior And Local Government

My warmest greetings to the Philippine Constructors Association Inc. (PCA), as you hold the PHILCONSTRUCT Series 2026.

The Department of the Interior and Local Government is always eager to provide its support to all endeavors towards the inclusive development of our country. As we collectively work to achieve a progressive Bagong Pilipinas, we recognize the important role of the private sector in pushing forward this national agenda. The PCA, committed to the continued development of the local construction industry, is one of our steady partners in making sure that progress in this country remains sustainable and truly for the benefit of the Filipino people.

At this year's PHILCONSTRUCT, we look forward to a productive exchange of ideas and innovations in building technology, engineering, and architecture. This valuable platform will help advance our construction industry and make it even more responsive to today's changing landscapes. I wish that all participants will take this opportunity not only to enhance their capabilities and build their networks, but more importantly to acknowledge the need for constant development as we adapt to the climate reality and tread on the competitive global milieu.

On behalf of the Department, I commend the PCA for gathering leaders of the construction industry in this event. I wish this activity and all the participants great success.

Mabuhay!

A stylized black ink signature of Juanito Victor C. Remulla.

Sec. Juanito Victor C. Remulla
Secretary

Bases Conversion And Development Authority

Greetings to the Philippine Constructors Association, Inc. on the staging of the PHILCONSTRUCT Series 2026.

As the country's premier construction trade event, PHILCONSTRUCT continues to serve as a vital platform where industry leaders, innovators, and stakeholders converge to shape the future of the built environment. It reflects the strength and dynamism of a sector that plays a crucial role in driving economic growth through generating employment and building resilient communities.

At the Bases Conversion and Development Authority (BCDA), we recognize that infrastructure is more than just concrete and steel—it is a foundation of opportunity. Through transformative developments such as Bonifacio Global City, New Clark City, Clark Freeport Zone, and our other strategic economic zones in Northern and Central Luzon, we have seen how forward-looking planning unlocks new possibilities for the communities we serve. These projects demonstrate how public-private partnerships successfully convert former military bases into thriving centers of commerce and inclusive growth.

As we pursue sustainable, smart, and future-ready developments, collaboration with the construction industry remains essential. Platforms like PHILCONSTRUCT foster innovation, encourage the adoption of new technologies, and promote best practices that advance efficiency and climate resilience in infrastructure delivery.

We commend the organizers and participants for their continued commitment to excellence and innovation. May this year's series inspire stronger partnerships and bold ideas that will help build a more connected, competitive, and sustainable Philippines. May this year's series spark bold ideas and accelerate the realization of infrastructure that is not only built to last, but built to uplift. Together, let us continue building more—more opportunities for growth, more resilient communities, and more inclusive pathways toward a stronger and more sustainable Philippines.

We wish PHILCONSTRUCT Series 2026 every success!

Engr. Joshua M. Bingcang

President and Chief Executive Officer

Construction Manpower Development Foundation

It is with great pride and enthusiasm that I extend my warmest greetings to all participants, exhibitors, and guests of the PHILCONSTRUCT 2026.

As the country's leading construction trade platform, PHILCONSTRUCT continues to bring together industry leaders, innovators, and stakeholders across the nation. The Construction Manpower Development Foundation (CMDf) is honored to once again be part of this landmark series that promotes collaboration, innovation, and inclusive industry growth.

The PHILCONSTRUCT 2026 will be staged across the country, beginning with the 6th PHILCONSTRUCT Luzon on 23-25 April 2026 at the SMX Convention Center Clark, Pampanga, followed by the 37th PHILCONSTRUCT Manila on 25-28 June 2026 at the SMX Convention Center Manila and SM Concert Grounds. The series continues with the 15th PHILCONSTRUCT Mindanao on 3-5 September 2026 at the SMX Convention Center Davao, SM Lanang, and concludes with the 15th PHILCONSTRUCT Visayas on 26-28 November 2026 at the Waterfront Cebu City Hotel & Casino, Lahug.

Beginning in 2017, the PHILCONSTRUCT Technoforum has served as a vital platform for CMDf and its partners to deliver Industry-Supported Programs (ISP) that strengthen the competencies of the Filipino construction workforce and expand access to innovation and modern construction practices.

CMDf's continued participation in the PHILCONSTRUCT underscores its commitment to workforce development and industry transformation. It provides a meaningful venue to promote skills advancement, share best practices, and build strategic partnerships toward a more competitive, resilient, and future-ready construction sector. Furthermore, as a government agency, CMDf plays a key role alongside industry champions in advancing reforms and supporting the construction sector's recovery following recent challenges.

Congratulations to the organizers, partners, and exhibitors for another outstanding PHILCONSTRUCT. May the 2026 editions inspire collaboration, innovation, and sustained progress across all regions of the country.

Mabuhay!

Ms. Ofelia R. Usigan
Executive Director

Philippine Overseas And Domestic Construction Board (PODCB)

On behalf of the Philippine Overseas and Domestic Construction Board (PODCB), we extend our warmest welcome to you all to this premier gathering of the construction sector – the largest and most influential industry event in the Philippines.

PhilConstruct has long been the vital platform where innovation meets practice, where local capability connects with global standards, and where we collectively shape the future of our built environment. This year's edition arrives at a pivotal moment: our nation continues to advance its "Build Better More" program, with massive infrastructure projects across land, transport, energy, and urban development – driving economic growth, connectivity, and inclusive progress for every Filipino.

PODCB stands firmly with you. We work to ensure our constructors, engineers, architects and workforce are globally competitive, accredited, compliant and skilled on modern technologies and sustainable practices. Whether building here at home or exporting Philippine expertise abroad, our goal remains the same: quality, safety, sustainability and excellence in every project.

PhilConstruct is exactly where that vision turns into reality. Here you will find equipment, materials, digital solutions, the latest technologies and meet partners, learn from experts, and discover opportunities to expand your reach.

We encourage everyone to engage in our seminars and learning sessions, where we provide orientation on important industry programs such as CIAP Document 102, Simpleng Kontrata and other construction contracts to help better align with local and international standards.

Let us continue to raise our standards, adopt sustainable methods and proudly showcase Filipino craftsmanship and engineering excellence to the world.

May PhilConstruct Manila 2026 be filled with productive exchanges, meaningful partnerships, and great success for every participant. Let us build the future – together, better, and sustainably.

A handwritten signature in black ink, which appears to read "Doris U. Gacho".

Doris U. Gacho
Executive Director

Metropolitan Manila Development Authority

On behalf of the Metropolitan Manila Development Authority (MMDA), it is a profound honor to extend my warmest greetings and welcome to the Philippine Constructors Association, as well as the esteemed building and infrastructure developers, leaders, and members.

For decades, Philconstruct served as the nation's leading construction trade event, acting as a vital conduit for showcasing the latest innovation and industry solutions across key regions of the Philippines. This year, it is no longer about the scale of physical structures but has shifted its focus toward smarter, faster, and more intentional construction, emphasizing the integration of advanced technology, environmental sustainability, and operational efficiency.

The Metropolitan Manila Development Authority (MMDA) stands at the forefront of delivering crucial, metro-wide services with the integration of digital and modern technologies.

This year's approach championed by Philconstruct symbolizes MMDA's initiatives in digitizing traffic management, upgrading the Communications and Command Center, and enhancing the "No Contact Apprehension Policy" (NCAP), among projects.

We are also making advances in the Project for Capacity Enhancement on Traffic Management with improvement of Intelligent Transport System in Metro Manila in partnership with Japan International Cooperation Agency (JICA) as we push for Metro Manila's better mobility by developing a centralized traffic data platform.

As a partner of the government, may Philconstruct Series 2026 open new collaborations, groundbreaking projects, and opportunities on how the private sector's technical expertise aligns with the administration of President Ferdinand Marcos Jr.'s "Build Better More" Program under Bagong Pilipinas.

To the organizers, your unwavering commitment to excellence has set a new standard and elevated the Philippine construction industry to new heights.

Together, let us build a nation that is stronger, sustainable, and future ready.

Mabuhay tayong lahat!

Atty. Romando "Don" S. Artes
Chairman

Philippine Economic Zone Authority

On behalf of the Philippine Economic Zone Authority (PEZA), I extend my highest commendations to the Philippine Constructors Association Inc. (PCA) on the successful opening of the PHILCONSTRUCT Series 2026.

As we navigate an era of urban transformation and industrial evolution, the construction industry remains a cornerstone of our nation's progress. For PEZA, you are more than builders—you are our valued partners in building a future that is sustainable, resilient, and world-class.

Our mission to position the Philippines among the top investment destinations in ASEAN relies heavily on the essential infrastructure that you help build and provide. With over 400 economic zones across the archipelago, the synergy between PEZA's red carpet treatment and PCA's commitment to engineering excellence strengthens the nation's appeal for international investors. Efficient and high-quality construction plays a vital role in advancing the country's Ease of Doing Business (EODB), enabling investments to move swiftly from approval to full operation with greater efficiency and certainty. By ensuring that infrastructure development stays ahead of investment commitments, we are able to provide the optimum location, ensure timely logistics and provide sustainable ecosystems, empowering enterprises to establish operations without delay—in turn transforming policy reforms into real economic activity, job creation, and sustained growth.

By showcasing over a thousand local and global brands as well as cutting-edge technologies, PHILCONSTRUCT serves not only as a premier platform for collaboration, knowledge exchange, and business opportunities, but more importantly, as a testament to the expertise and innovation of Filipino builders who are ready to compete and lead the global market. From the hubs of Manila to the emerging growth centers in Visayas and Mindanao, your work ensures that our investment-ready environment remains competitive, reliable, and capable of supporting long-term expansion.

At PEZA, we remain steadfast in our promise of "One-stop Shop and No Red Tape, Only Red-Carpet" service. We are committed to working hand-in-hand with our developers and stakeholders to further streamline the ease of doing business and make our ecozones the best business location for investments. We must ensure that every blueprint for an economic zone is translated into world-class infrastructure, quality employment opportunities, and sustainable, inclusive growth that uplifts our communities and empowers our countrymen.

To the organizers, exhibitors, and trade participants: congratulations! And may this event be a fertile ground for new partnerships, groundbreaking innovations, and shared success.

Together, let us build the infrastructure of a "Bagong Pilipinas" — one that is defined by excellence, driven by technology, and dedicated to the prosperity of every Filipino.

Maraming Salamat at mabuhay!

A stylized, handwritten signature in black ink, appearing to read 'T. Panga'.

Mr. Tereso O. Panga
Director General

Philippine Reclamation Authority

On behalf of the Philippine Reclamation Authority (PRA), I extend my full support to the Philippine Constructors Association, Inc. (PCA) for the successful staging of the PHILCONSTRUCT Series 2026.

As the primary government agency mandated to regulate, evaluate, and oversee reclamation projects nationwide, PRA plays a critical role in shaping the country's sustainable land development strategy. Through responsible reclamation, we help create much-needed land to support economic expansion, strategic infrastructure, port modernization, urban development, and investment-driven growth, while ensuring environmental stewardship and long-term resilience.

Reclamation is more than land creation; it is nation-building. It provides the foundation for new central business districts, logistics hubs, transport corridors, tourism estates, and mixed-use communities that stimulate employment and regional competitiveness. At PRA, we ensure that these projects adhere to strict technical, legal, environmental, and social safeguards, aligned with national development priorities.

The construction sector is an indispensable partner in this mission. PHILCONSTRUCT serves as a vital convergence point for innovators, contractors, developers, policymakers, and solution providers who collectively transform plans into enduring infrastructure.

As we advance smart, climate-adaptive, and future-ready developments, stronger collaboration between government and industry will be key. Together, we can build resilient coastal communities, modern urban centers, and sustainable growth corridors that benefit present and future generations.

PRA proudly stands with the construction industry in shaping a stronger, more progressive Philippines.

Engr. Cesar Siador, Jr.
General Manager and CEO

Association Of Carriers And Equipment Lessors (ACEL), INC

The Association of Carriers and Equipment Lessors (ACEL), Inc. extends a tremendous congratulations to the Philippine Constructors Association (PCA) on the official launch of PHILCONSTRUCT Manila 2026! As the country's biggest and most anticipated construction show, this year's event breaks exciting new ground with a refreshed timeline and a brand new venue, reflecting the fast-paced evolution of the industry.

While the backdrop changes, the energy and commitment remain rock-solid. PHILCONSTRUCT continues to serve as the ultimate, high-powered platform where industry leaders, innovators, and visionaries connect, spark game-changing ideas, and build powerful partnerships that will drive the future of Philippine infrastructure forward.

A major highlight of this year's exhibition is the Technoforum—a dynamic, collaborative initiative between ACEL and PCA. This forum features an action-packed lineup of seminars and workshops focusing on cutting-edge equipment advancements, advanced technology integration, and industry best practices designed to elevate local capabilities to a global scale.

ACEL invites all industry professionals, developers, and stakeholders to jump in, take action, and participate in this landmark event. Together, let's champion a globally competitive Philippine construction industry and make PHILCONSTRUCT Manila 2026 an unforgettable success!

Abigail S. Mancilla
President

Bulacan General Constructors Association, INC.

Dear Fellow Constructors,

Warm greetings to the Philippine Constructors Association (PCA), the dedicated organizers of PHILCONSTRUCT 2026, and to every industry leader, exhibitor, sponsor, partner, and construction professional joining us at this year's event.

It is both an honor and a privilege to stand with you as we celebrate yet another milestone in our industry. PHILCONSTRUCT 2026 is more than just an exposition - it is a testament to the resilience, ingenuity, and unwavering commitment of every Filipino constructor who continues to build this nation, one project at a time.

For 37 years, PHILCONSTRUCT has stood as the premier stage where developers, innovators, suppliers, contractors, investors, and decision-makers converge - not merely to showcase products and services, but to forge the partnerships and conversations that truly move our industry forward. That legacy is something we should all be proud of.

Today, we find ourselves at a pivotal moment. The construction landscape is evolving rapidly - shaped by modernization, digital transformation, and the growing demand for sustainable and resilient infrastructure. The challenges are real, but so are the opportunities. Events like PHILCONSTRUCT remind us that when we come together with shared purpose, there is no structure too ambitious to build.

To our fellow contractors, exhibitors, and trade professionals - I encourage you to make the most of every booth visited, every seminar attended, and every handshake exchanged. The connections you make here have the power to open doors, spark ideas, and define the next chapter of your business.

On behalf of the Bulacan General Contractors Association, Inc. (BGCA), a proud member chapter of PCA in Bulacan, I extend my sincerest congratulations to the organizers and everyone who made PHILCONSTRUCT 2026 possible. Your efforts do not go unnoticed - they are deeply felt by every contractor, worker, and stakeholder whose livelihood and future this industry carries.

Wishing everyone a fruitful, inspiring, and successful PHILCONSTRUCT 2026.

Maraming salamat po at mabuhay ang industriya ng konstruksyon ng Pilipinas!

A handwritten signature in black ink, appearing to read 'Arturo Juan'.

Engr. Arturo Juan
President

Cebu Contractors Association, INC. (CCAI)

On behalf of the Cebu Contractors Association, Inc. (CCAI), it is my distinct honor and privilege to extend our warmest greetings to each and every one of you as we gather for PHILCONSTRUCT MANILA 2026 – the Philippines' premier construction trade show and exposition.

This year's event is more than just an exhibition. It is a testament to the resilience, dynamism, and forward-looking spirit of the Philippine construction industry. Year after year, PHILCONSTRUCT brings together the brightest minds, the boldest innovations, and the most dedicated professionals in our field – and 2026 is no exception.

As we stand at the intersection of opportunity and transformation, the construction industry continues to serve as one of the most vital drivers of our nation's growth. From infrastructure development to sustainable urbanization, from housing to highways, we build not just structures – we build the foundation of progress for generations to come.

From the south, the Cebu Contractors Association, Inc. is proud to be part of this grand gathering. Cebu has long been a crucible of construction excellence – a region where skilled craftsmanship meets modern engineering, and where the demand for quality construction continues to grow in step with our economic advancement. We bring with us the pride of Cebuano workmanship and the commitment to upholding the highest standards of our profession.

To our fellow contractors across the archipelago – whether from Luzon, Visayas, or Mindanao – let us seize this occasion to exchange knowledge, forge meaningful partnerships, explore new technologies, and strengthen the bonds that unite us as one construction community. Let us engage with our suppliers, our government partners, and our international counterparts with the shared goal of elevating Philippine construction to world-class standards.

To the organizers of PHILCONSTRUCT MANILA 2026, we commend your tireless efforts in bringing this magnificent event to life. Your dedication to the industry is an inspiration to us all.

And to our guests and visitors – we warmly welcome you. May your experience at PHILCONSTRUCT be enriching, eye-opening, and filled with new possibilities.

Together, let us build a stronger, smarter, and more sustainable Philippines.

Mabuhay ang PHILCONSTRUCT MANILA 2026!

Mabuhay ang industriya ng konstruksyon ng Pilipinas!

A handwritten signature in black ink, appearing to read 'Benedict Uy'.

Mr. Benedict Uy
President

Davao Constructors Association Center, INC. (DCACI)

Warmest greetings and a heartfelt welcome to all exhibitors, partners, industry leaders, and guests attending PHILCONSTRUCT Manila 2026.

As one of the country's premier construction and infrastructure events, PHILCONSTRUCT Manila continues to serve as a dynamic platform that brings together the brightest minds, most innovative technologies, and leading companies in the construction industry. This prestigious gathering reflects our shared commitment to excellence, progress, and nation-building.

May this event inspire meaningful collaborations, create valuable opportunities, and strengthen partnerships that will shape the future of the construction sector in the Philippines. We are honored to be part of this remarkable occasion and look forward to a successful and productive celebration of innovation and industry excellence.

Welcome to PHILCONSTRUCT Manila 2026, where vision, innovation, and opportunity converge.

Organization Of Socialized And Economic Housing Development Of The Philippines

Good day, everyone!

On behalf of the Organization of Socialized and Economic Housing Developers of the Philippines, or OSHDP, it is my honor to extend our warmest greetings to all of you gathered here today for Philconstruct.

For 37 years, Philconstruct has served as the country's premier construction trade show, bringing together builders, developers, suppliers, professionals, and innovators to showcase the ideas, technologies, and solutions shaping the future of construction and housing in the Philippines. More than an exhibition, it has become a platform for collaboration, innovation, and nation-building.

As the leading organization of private developers in mass housing, OSHDP remains committed to being a dependable partner in advancing innovation and inclusive growth within the housing sector. We believe that meaningful progress happens when government, industry, and stakeholders work together toward a common vision of building better homes, stronger communities, and a stronger nation.

At the same time, we recognize that innovation and housing production can only thrive within a progressive and enabling regulatory environment. As advocates for affordable housing, we continue to push for policies that genuinely listen to stakeholders and strike the right balance between protecting homebuyers and encouraging private-sector participation in housing development. Regulation is important and necessary, but it must also remain practical, consultative, and responsive to realities on the ground so we can continue building homes at the scale and speed Filipino families urgently need.

At a time when the country faces growing housing challenges and increasing demands for sustainable development, gatherings like Philconstruct become even more important. They remind us that what we build is not merely infrastructure or structures, but opportunities that uplift lives and give Filipino families the dignity of a safe and decent home.

So as we celebrate another milestone for Philconstruct, let us continue to innovate, collaborate, and inspire one another. Let us continue building not only with concrete and steel, but with purpose, vision, and shared responsibility for the future of our communities.

Together, let us build a better tomorrow for our homes, our communities, and our nation.

Maraming salamat, and Mabuhay ang Philconstruct!

Mr. Paolo Giovanni Olivares
Chairman

Philippine Green Building Initiative

On behalf of the Philippine Green Building Initiative, it is both a privilege and an honor to extend my warmest welcome to all distinguished guests, industry leaders, exhibitors, and participants gathered for the PHILCONSTRUCT Regional Series 2026.

This gathering stands as a compelling affirmation of the Philippine construction industry's enduring vitality, ingenuity and collective resolve to shape progressive environments that are responsive to the evolving demands of our time. PHILCONSTRUCT has established itself as more than a premier industry exposition; it has become an essential convergence point for technical innovation and meaningful professional collaboration among the country's foremost builders, visionaries and decision-makers.

As we convene in the nation's capital, we are reminded that progress must be pursued not only with ambition, but with foresight and responsibility. The rapid evolution of our built environment underscores the growing significance of commitment to innovation, strategic foresight and responsible stewardship.

The Philippine Green Building Initiative remains committed in advocating solutions that advance efficiency, sustainability, and long-term resilience within the industry. We commend the organizers, exhibitors, and participants for their continued allegiance to elevating standards of excellence and contributing to a more future-ready construction sector.

May this PHILCONSTRUCT Regional Series inspire productive discourse and renewed purpose as we advance a more resilient, innovative and sustainable future for the Philippine construction industry.

As we convene in the nation's capital, we are reminded that progress must be pursued not only with ambition, but with foresight and responsibility. The rapid evolution of our built environment underscores the growing significance of commitment to innovation, strategic foresight and responsible stewardship.

The Philippine Green Building Initiative remains committed in advocating solutions that advance efficiency, sustainability, and long-term resilience within the industry. We commend the organizers, exhibitors, and participants for their continued allegiance to elevating standards of excellence and contributing to a more future-ready construction sector.

May this PHILCONSTRUCT Regional Series inspire productive discourse and renewed purpose as we advance a more resilient, innovative and sustainable future for the Philippine construction industry.

A handwritten signature in black ink, appearing to be 'L. Conti'.

Leandro A. Conti, PME
Chairman/President

Philippine Society Of Mechanical Engineers

Greetings and congratulations to the organizers, sponsors, exhibitors and visitors of the PHILCONSTRUCT 2026. This is another milestone of PHCONSTRUCT as it celebrates its 37 years of service to the industry. As the premier construction industry trade show in the Philippines, it features large-scale machinery, construction technology, building materials, and industry forums. Through the years it had provided a venue where suppliers and clients meet for collaboration and sharing of experiences.

In the advent of global modernization, the construction industry is evolving where new technologies and building materials were developed to meet the increasing demand of the industry. With a very competitive market coupled with the increasing cost of materials, manufacturers had to be innovative in making their products cost effective to meet customer satisfaction and deliver value for money. Likewise, the users had developed new design and methods of construction to optimize the use of the materials.

Anchored on the theme, "Responsible Construction for a Resilient Philippines," is timely and fitting to the occasion because it involves designing and fortifying infrastructure to withstand typhoons, earthquakes, and climate change. It prioritizes strict adherence to building codes, sustainable materials, and rigorous site selection to safeguard communities and ensure long-term structural integrity.

This year's expo as the premier destination to discover new building solutions and forge industry partnerships is a must visit to all members and enthusiast of the construction industry. This a unique opportunity where designers, contractors, manufacturers, suppliers and customers are gathered under one roof to shape the future of the construction industry. See you on June 25-28, 2026, at the SMX Convention Center Manila and SM Concert Grounds.

More power at Mabuhay ang PHILCONSTRUCT!

Atty. Rodolfo M. Seredrica
National President

Philippine Paint And Coatings Association, INC.

On behalf of the Philippine Paint and Coatings Association, Inc. (PPCAI), I warmly invite our valued partners, colleagues, industry leaders, suppliers, professionals, and friends to join us at the Official Opening Ceremony of the 37th PHILCONSTRUCT on Thursday, June 25, 2026.

For 37 years, PHILCONSTRUCT has stood as one of the Philippines' most important and influential trade events – a dynamic convergence of industries that continue to shape the nation's growth through innovation, engineering, architecture, manufacturing, construction, and infrastructure development. More than an exhibition, it has become a symbol of collaboration among sectors that help build not only structures, but also opportunities, livelihoods, and progress for the Filipino people.

As President of PPCAI, I take immense pride in seeing the paint and coatings industry continue to play a vital role within this larger ecosystem. Our industry does far more than provide color and aesthetics. Paints and coatings protect vital infrastructure, preserve investments, support sustainability initiatives, improve safety standards, and contribute to the long-term durability and resilience of the spaces where people live, work, and thrive.

In many ways, the story of construction is also the story of partnership. No industry grows in isolation. The remarkable achievements of Philippine construction over the years have been made possible through the collective efforts of developers, contractors, engineers, architects, manufacturers, suppliers, innovators, and countless workers whose dedication continues to transform visions into realities. PHILCONSTRUCT remains one of the few platforms where these partnerships are strengthened and where new opportunities for collaboration are born.

This year's gathering comes at a particularly meaningful time as industries continue to navigate rapid technological advancements, sustainability challenges, evolving market demands, and the growing need for resilient and future-ready infrastructure. Events such as PHILCONSTRUCT allow us not only to showcase products and innovations, but also to exchange ideas, deepen relationships, and collectively envision the future of nation-building in the Philippines.

We in PPCAI are proud to stand alongside our partners in supporting initiatives that promote excellence, innovation, environmental responsibility, and professional growth within the construction sector. We likewise commend the organizers, exhibitors, sponsors, and participating organizations whose continued commitment has allowed PHILCONSTRUCT to remain a cornerstone event for the industry through the years.

I sincerely hope you can join us for this important occasion. Following the Opening Ceremony, guests will also be invited to a guided tour of the exhibition, followed by a fellowship luncheon – providing further opportunities for meaningful engagement and camaraderie among industry peers and stakeholders.

Your presence will not only honor the occasion but will also help reinforce the spirit of unity and cooperation that continues to move our industries forward. Together, let us celebrate innovation, strengthen partnerships, and continue building a stronger and more progressive Philippines.

See you at the 37th PHILCONSTRUCT on June 25, 2026

Reginald T. Yu
President

UNITED ARCHITECTS OF THE PHILIPPINES

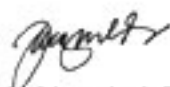

Warm greetings from the United Architects of the Philippines!

I join the Philippine Constructors Association Inc. in welcoming all participants, exhibitors, industry partners, manufacturers, suppliers, builders, and fellow professionals to PHILCONSTRUCT 2026 as you celebrate 37 years of excellence and innovation in the construction and design industry.

For nearly four decades, PHILCONSTRUCT has brought together professionals and industry leaders to share knowledge, discover new technologies, and strengthen collaboration across the built environment sector.

On behalf of the United Architects of the Philippines, I extend our sincere appreciation to PHILCONSTRUCT for supporting Filipino architects and construction professionals in delivering better, more sustainable, and future-ready projects.

Mula sa lahat ng mga Arkitektong Pilipino, mabuhay ang PHILCONSTRUCT!

Ar. Jonathan V. Menaled, PhD., FUAP, PIEP
National President

Thai Trade Center Manila

On behalf of the Thai Trade Center in Manila, the Department of International Trade Promotion, Ministry of Commerce of Thailand, I extend our warmest congratulations to the Philippine Constructors Association, Inc. (PCA) on the successful organization of PHILCONSTRUCT 2026 and on 37 years of bringing together leaders and stakeholders in the construction and infrastructure industries.

Under the theme "Responsible Construction for a Resilient Philippines," this premier industry event emphasizes the importance of innovation, sustainability, and climate-adaptive solutions in shaping the country's infrastructure sector. For nearly four decades, PHILCONSTRUCT has provided a valuable platform for industry leaders, professionals, and businesses to exchange ideas, strengthen partnerships, and showcase technologies and practices that support resilient construction and sustainable communities across the Philippines.

We sincerely commend PCA and its co-organizers for their continued dedication, vision, and leadership in sustaining PHILCONSTRUCT's legacy. Your efforts in promoting innovation and sustainability have greatly contributed to the advancement of the construction industry and are highly valued and appreciated.

We wish PHILCONSTRUCT 2026 every success and look forward to the continued strengthening of ties and collaboration between Thailand and the Philippines in the fields of trade, construction, and sustainable development.

Sutinee Vathana
Director

German-Philippine Chamber Of Commerce And Industry, INC.

On behalf of the German-Philippine Chamber of Commerce and Industry, I extend my warmest greetings to the organizers, exhibitors, partners, and participants of PHILCONSTRUCT 2026.

As the Philippines continues to advance its infrastructure and urban development goals, platforms such as PHILCONSTRUCT play an important role in bringing together industry leaders, innovators, and stakeholders committed to building a more resilient and sustainable future.

This year's theme, "Responsible Construction for a Resilient Philippines" emphasizes the growing importance of sustainability, climate adaptability, and long-term infrastructure reliability. These priorities strongly resonate with the German business community, which continues to support innovation, quality standards, and sustainable development initiatives in the Philippines.

We commend the organizers for creating a venue that encourages collaboration, knowledge-sharing, and the exchange of technologies and solutions that contribute to national development.

We wish PHILCONSTRUCT 2026 every success and look forward to the meaningful partnerships and opportunities that will emerge from this event.

A handwritten signature in black ink that reads "C. Zimmer".

Christopher Zimmer
Executive Director

THE STEEL BEHIND STRONGER PROJECTS

From commercial buildings to major infrastructure projects, our reinforcing steel bars are manufactured to deliver quality, precision, and reliability for every build.

BUILT FOR

Contractors • Engineers • Developers • Steel Traders • Infrastructure Projects

WHY INDUSTRY PROFESSIONAL CHOOSE US?

- ✓ 400,000 MT Annual Production Capacity
- ✓ PNS - Compliant Reinforcing Steel Bars
- ✓ Advanced Rolling Technology
- ✓ Thermex Capability
- ✓ ISO 9001:2015 Certified
- ✓ Strict Quality Control Standards
- ✓ Various Sizes and Grades Available

1297 Daang Bato Street, Lawang Bato
Valenzuela City, Philippines

ABS PHILIPPINES

Address: No. 613 Glorietta St. near cor. C. Raymundo Ave. Caniogan, Pasig City, Philippines

Website: <https://www.abs.com.ph/>

Company Profile:

ABS YAPI was founded in 2011 in cooperation with Centrum Business Center A., Gümütay Construction and Trade Ltd. ti., and the Cüntay family to introduce innovative products to the Turkish construction industry. In 2024, ABS YAPI established its subsidiary ABS PH in the Republic of the Philippines in partnership with Filipino shareholders Rexel A. Britos and Ric B. Lamigo, with the objective of providing closer and more direct support to customers across Southeast Asia. Prior to the formal establishment of ABS PH, ABS products had already been utilized in the Philippine market between 2021 and 2024 in notable projects including The Yuchengco Centre and The Seasons Residences, with EEI Corporation as the main contractor and Federal Land and San Lorenzo Ruiz as developers. In 2025, ABS PH further expanded its market presence by supplying major contractors Megawide and MDC for projects including Bauhinia, Greenbelt Reinventions, Glorietta Park, and Avesta Residences.

Company Profile:

Foundation Associates Engineering (FAE) began in 1998 continuing a tradition of innovation. Today, we continue to be one of the leaders in the Asian market for our range of FAV Vibratory Drivers/ Extractors coupled with our line of more powerful and reliable Hydraulic Powerpacks. Our in-house brand FAV and its logo are a trademark of assurance and confidence that is well recognized in the local and ASEAN construction industry. Each of our FAV Vibratory Driver/Extractor and Powerpack provides impressive driving and extracting capability.

In recent years, we have enhanced our capability of building our own hydraulic powerpacks to meet the current challenging conditions of construction sites and to meet the needs of our customers. The combined configuration offers contractors significant cost advantages with the ability to meet a diversity of requirements utilizing one hammer with multiple energy ratings. FAE's success continues with a tradition of commitment to manufacturing and marketing the very best pile driving equipment. Simplicity of design, reliability of performance and durability for long service life continue to be core principles of our business. These values resonate with our key partners, contractors and engineering firms worldwide.

Every FAE's equipment seen today has been the result of working closely with the customers and understanding their needs. For decades, FAE has evolved through inventing, perfecting tools and equipment to meet customers' requirements for advanced solutions to highly challenging projects.

SICCION MARKETING INC.

Address: CBS Building 1800 A. Mendoza St. Sampaloc, Manila, 1008, Philippines

Website: www.smi-group.com.ph

Company Profile:

Siccion Marketing, Inc. traces its roots to the early 1960s when Engr. Cayetano B. Siccion began repairing surveying instruments from his home to supplement his work at the Bureau of Lands. In 1965, together with his wife Belen, he established Siccion Surveying Equipment Manufacturing, a NACIDA-registered enterprise that pioneered the local production of surveying tools in the Philippines. In 1980, the business was incorporated as Siccion Marketing, Inc., growing into a full-service provider of surveying, engineering, and scientific instruments. In addition to manufacturing, the company expanded into distributing imported equipment and supplies for engineering, construction, and laboratory use. Today, Siccion Marketing offers a diverse range of products, including materials testing equipment, laboratory instruments, and scientific supplies, serving professionals and institutions across various industries.

STEELASIA

Address: 25th Floor, Ore Central Building, 31st St. corner 9th Ave., Bonifacio Global City, Taguig City, Philippines

Website: steelasia.com

Company Profile:

SteelAsia is the country's flagship steel manufacturer and one of the largest rebar producers in Southeast Asia with four rebar mills across the archipelago and a combined capacity of 2.4 million tons per year. Setting technological and management benchmarks for the industry to follow, SteelAsia introduced to the country state-of-the-art steel rolling mill technology and was the first to regionalize steel supply, dispersing economic activities and job creation with steel facilities in Bulacan, Batangas, Cebu, and Davao City. Recently, SteelAsia became the first Philippine company to export steel bars and has shipped a total of 87,000 metric tons to Canada as of January 2025. Today, SteelAsia employs over 3,000 personnel; additionally, an estimated 15,000 jobs are created in support of its plant operations. The company estimates it supplies around 80% of all infrastructure, high-rise and other heavy construction in the country. SteelAsia has become a global benchmark for producing steel with one of the lowest CO2 emissions in the world, putting the Philippines at the forefront of the development of Green Steel internationally. With plans to add new facilities that could avoid 7 million tons of CO2 per year, SteelAsia's green steel methodology involves a combination of recycling and renewable energy to achieve a staggering 90% reduction in CO2 compared to traditional steelmaking technologies.

STEELBOSO (MARKET OF MATERIAL INC.)

Address: 10B Six Neo, 5th Ave., Bonifacio Global City, Taguig City, Metro Manila 1635
